

ThinkPad E15 Gen 2 (Intel)

With remote working on the rise, businesses need to invest in endpoint devices that prioritize performance with portability and security. This 15.6" entry-level ThinkPad offers all that, at a price that will fit most budgets. Latest Intel processors, dual SSD storage, and intelligent cooling technology help boost everyday productivity. MIL-SPEC durability means it can withstand accidental knocks or spills and the battery lasts the full workday – making this an excellent choice for mobile workers.

Redefining possibilities with powerful performance and groundbreaking on-device AI

The entry-level ThinkPad, E Series features the famous keyboard and trackpoint, and is MIL-SPEC tested ensuring the build quality for which ThinkPad is renowned.

Prioritizes security with features like a fingerprint reader integrated with the power button and an optional IR camera for fool-proof biometric authentication. There's also a Kensington lock slot to physically secure the device and a privacy cover on the camera that protects user privacy.

Disruption-free online meetings are critical for effective remote collaboration. This device comes with AI-based noise cancellation technology and integrated wireless Bluetooth earbuds that pair automatically with the device for seamless web calls.

This entry-level ThinkPad is perfect for buyers looking to maximize the number of devices for their budget without compromising on device reliability or the productivity needs of their users.
